Title: "Loops"

"Loops" is comprised of two giant floating "chandeliers" animated by electric motors that are integrated into the artwork's support structure. It maintains an elegant choreography of moving and curving slopes that are contrary to its materials – approximately 200 linear feet of 5-inch-diameter aluminum tubing coated with automotive paint in a sunny dual-tone finish. Each piece weighs approximately 1,000 pounds and occupies a cubic volume of approximately 27' x 27' x 27'.

AMENITIES:

Mother's Room • Pet Relief Area
Restrooms • Integrated power in chairs and tables
More than 10,000 square feet of terrazzo flooring
Lounge seating
